

HP Renew Program

Customer overview

Like new products, like wow prices... What's not to like?

Proven technology that drives results

The HP Renew Program is a worldwide strategic initiative from HP designed especially to complement new product sales. It offers you an alternative to new HP products, with an extensive portfolio of quality HP products, fully remanufactured by HP and backed by the original HP warranty. Only products that have been through HP's rigorous refurbishment process can be part of HP Renew.

Products are sourced from the HP demo pool, factory loaner equipment, factory excess, customer returns, and trade-ins. More than 80% of the equipment is less than 12 months old. The latest HP technology is also available, as product returns often begin shortly after their initial introduction.

The HP Renew portfolio

- HP Business Critical Servers, including Superdome
- HP StorageWorks Solutions
- HP Industry Standard Servers

What can we offer you?

- An extended HP portfolio
- Original HP quality and reliability
- Full HP warranty, service and support options
- Great price/performance
- An alternative to stretch your IT budget
- Custom configuration
- Support from a specialized HP Renew team

Compatible products, competitive prices

Price/performance with HP guarantee

Your IT budget is tight but you still want HP quality? Then the HP Renew Program is designed for you. An affordable price and the original HP manufacturer's warranty are just the beginning. Products from the HP Renew portfolio are at least 15% below the price of new, in addition to unbelievable promotions, so you can reduce your IT costs and increase your bottom line.

Available solutions

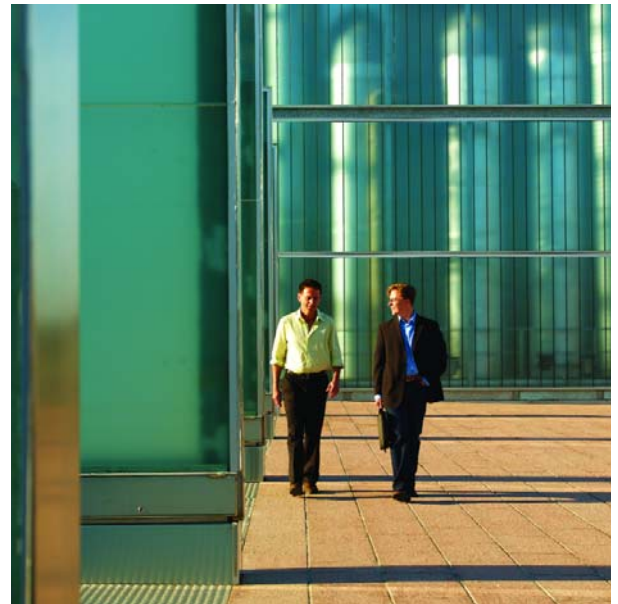

You want it and you want it now? The HP Renew Program can often deliver at short notice and source from an extensive worldwide inventory – a great backup solution when new products may not be immediately available. The ability to mix and match equipment lets you reach a cost-effective and high-quality solution.

Defy time with HP Renew

You may not always want to apply the very latest technology or keep pace with short technology lifecycles. Defy time and maintain your existing IT infrastructure while adding upgrades and expanding to the next generation – at your own pace.

Comparable solutions

Get the most out of your IT budget by 'mixing and matching' new HP products with the HP Renew portfolio, ensuring HP quality and reliability, coupled with compatibility and performance for future growth.
